SINGLE COPY 15 CENTS

2 SECTIONS 14 PAGES

Less than last year

Bay's 78 budget tops \$3 million

By ELLIS CUEVAS
Bay St. Louis adopted a \$3,004,269 budget for Oct. 1, 1978, through Sept. 30, 1979.

The new Budget, \$200,000 less than last year's amended budget was accepted at a recess meeting Wednesday.

All City employees will receive a raise with the exception of the mayor and councilmen.

City Finance Officer Kelly McQueen said the reduction in this year's budget compared to last year's is caused by several factors.

McQueen said a 1968 Street Improvement Bond was paid off last year in the approximate amount of \$80,000. Anti-Recession Fiscal Assistance

totaling \$50,000 received last year has not been renewed, McQueen said.

In addition, the budget last year for the CETA Program was \$97,000 and this year is only \$36,000 since it expires on Dec. 31, the city fiscal officer explained.

There is a possibility of the CETA Program being extended as employees are scattered throughout city departments.

Councilman Harry Favre made the motion to accept the new budget, and it was seconded by Pete Benvenuti and passed unanimously.

Mayor Larry Bennett said after the Council's acceptance of the budget, "I want to personally compliment the

Council for raising the City Employees salaries. The Employees are long over due for a raise."

The new salaries reflect a raise in the base pay for police and firemen from \$500 to \$550. The lowest paid fireman and policeman on the payroll are now making \$575 per month. Any new recruits in either department will start at a base pay of \$550 per month.

Other City employees received salary increases, based on individual performance and time on the job. All raises went into effect October 1, 1978.

Of the \$3,004,269 budgeted, 1,101,156 will be for the general expenditures fund. Some \$36,000 of the general fund comes from the CETA program.

The Utility Department share is \$973,000. The Parks and Playgrounds Department receives a total of \$29,269.

BAY BUDGET-PAGE 4A

NO HOLLYWOOD STUNT—This 1979 Ford Fairmont was towed in Thursday by Dave's Auto Shop, said Cliff Burch, worker at the shop, who added the car appeared to have been cut in half by a cutting torch. The car looks like it has never been ridden in before and was apparently stolen from a Ford dealer's lot, Burch speculated. The vehicle was found off US-90 in Devil's Swamp near Pearlinton. The Hancock County Sheriff's Department ordered the car towed in, he said (Staff photo-Leslie Williams)

Save the Bay forsee victory in Dupont suit

By LESLIE WILLIAMS
Save the Bay members feel they have at least a 60 percent chance of winning a suit to prohibit Dupont from dumping waste into the waters of Bay St. Louis.

A suit to prohibit Dupont from discharging waste water into Bay St. Louis is before the Fifth Circuit Court of Appeals in New Orleans, and our lawyers say we have at least a 60 percent chance of winning that suit," said Save the Bay member Cyril Laan.

"Of course if we do win, chances are Dupont will take it to the Supreme Court," added Laan.

The suit, explained Laan, stems from several years back when U.S. Army Corps of Engineers, without making an environmental study of marine life in the Bay, issued a permit to Dupont to lay a 2,200-foot effluent pipeline to dump waste water into the Bay.

The Corps also did not research the effects of waste material that goes into the water before they issued the permit, continued Laan.

"Tighter restraints placed on discharge, and methods of spewing waste into the Bay by Dupont are other accomplishments of 'Save the Bay,'" exhorted Laan.

Ernest Melvin, chairman of Harrison County Board of Supervisors and speaker at the meeting Tuesday, agreed that Save the Bay has served the purpose of watchdog.

"Watchdogs are a good thing and you seem to have accomplished your purpose by raising pollution standards for Dupont," affirmed Melvin.

"Pollution is chemical rather than an organic problem in our surrounding waters," asserted Melvin.

Melvin quoted an article by Willard Bascom, director of the Southern California Coastal Project, as the source for his information.

Bascom states, "municipal sewerage containing fecal matter is natural substance used as fertilizer in many countries and not appreciably different from fecal material discharged by

marine animals. "Human waste" contains vast amounts of coliform bacteria, they are not in themselves harmful. "After the first two hours, 90 percent of human waste bacteria are killed in seawater."

"When there are no endemic diseases in the city discharge waste, there will be no disease microorganisms, but there is a possibility disease microorganisms could be activated in the event of a storm."

Melvin also suggested Mississippi emphasize tourism.

"Tourism provides jobs just as well as industry does," avowed Melvin.

Save the Bay members told Melvin a petition will be presented to the Harrison County Board of Supervisors asking for the following:

"Harrison County Planning Commission be reactivated and joined by a citizen advisory committee."

"New land use planning data be collected, utilizing public hearings and other sources of broad public input, and a comprehensive land use plan developed."

"Harrison County Board of Supervisors adopt and use this land use plan in making development decisions in conjunction with an updated industrial development plan that is compatible with the land use plan, the desires of the community and anticipated growth of the County."

"This land use plan be given strength by adoption of a process of review of major development proposals by the citizen advisory committee and by the adoption of a fair combination of land development controls such as flexible zoning ordinances, preferential tax assessments for historic areas, and prime forestry and agricultural lands, tax rebates for subdivision builders to set aside ideal park and recreational land for community use and possible development, county land banking, of skipped-over land, and acquisition of development rights."

News Briefs

BAY FIRST BAPTIST

The Bay St. Louis First Baptist Church dedicates its newly-renovated church and education buildings today beginning at 9:45 a.m. The congregation and pastor have invited the entire community to join in the celebration which will continue through the day.

GOOD SAM CLUB

The Gulf Coast Chapter of Good Sam Clubs, nation-wide and trailer owners organization, will stage a three-day camp-out at McLeod Park Oct. 20-22. The club has invited all Hancock County RV owners to participate. For information, call Mrs. L.W. Nybo, 467-7019.

MYSTERY SOLVED

Mrs. Alice G. Cuevas of Lakeview on the Jourdan River has received identification on the "swimming object" she captured in a crab pot last week. The Echo published a photo of the crustacean Thursday. Dr. Drew Fillingame of GCRL Oceanography, Ocean Springs, told Mrs. Cuevas the creature is a Macbracrum Car Cirus or tropical shrimp.

The species was last spotted off the coasts of Brazil and New Mexico in 1955. The creature grows up to two feet in length and two pounds in weight. It can adjust to various water temperatures and salinity. Dr. Fillingame told Mrs. Cuevas there are fresh water shrimp weighing about a quarter of a pound found occasionally but they die because of water temperature changes. Dr. Fillingame is doing further studies on the crustacean housed in a newly purchased aquarium at the Cuevas home where he is contentedly eating river grass.

FLOWER SCHOOL

The Bay-Waveland Garden Club is sponsoring Flower Show School Course No. 4 at City-County Library Oct. 17, 18 and 19. Speakers will be Dr. E.E. Puls, Southeastern University of Louisiana and Mrs. Ralph Fransen, New Orleans.

Industrial park option extended

By LESLIE WILLIAMS

An industrial plant's request for a one year extension on an option to purchase 205 acres in Port Blenville has been approved by the Hancock County Port and Harbor Commission.

The Commission will later recommend the Borg-Warner option for the acreage to Hancock County Board of Supervisors for final approval, said Commission Director Wilson Webre at Thursday's meeting.

"The Company produces plastic by-products," said Webre, "five of their plants are located in the northern United States."

Commission members also debated two resolutions that would place \$10,000 in a Gulf National Bank 'Gulf 5' account in Bay St. Louis.

Funds for this account would come from a \$4000 terminal account and \$6,000 railroad operating account.

"Let's put the money in Peoples Federal Savings and Loan and make 8.27 percent in interest on a certificate of deposit (CD)," exclaimed Commission member James DeBlanc.

The Commission can not intermingle funds, stated Commission Director Wilson Webre.

"If we can't intermingle these funds," interposed DeBlanc, "we can still get the 5.5 percent interest at Peoples Federal in a pass book savings account - which is a half percent higher than at Gulf National."

Gerald Gex, attorney for the Commission, said he has a solution for the intermingling of funds.

"You make one \$10,000 deposit in terminal railroad operating account," said Gex.

"The funds are not intermingled, because the funds are divisible—\$4000 for the terminal account; \$6,000 for the railroad operating account. Then you get your 8.27 percent," he concluded.

"Pass the resolutions like they are and I'll come up with a recommendation," Webre told the Commission.

The resolutions on the Oct. 12 agenda read as follows: "Resolution authorizing proper transfer of \$4,000 from Terminal Account to Terminal Gulf 5 Savings account; Resolution authorizing transfer of \$6,000 from Railroad Operating Account to Railroad Gulf 5 Savings account."

"Take the total monies in Gulf National Bank and buy a CD at Peoples Federal at a higher interest," reiterated DeBlanc.

"That's true Jim," said Webre, "but you don't understand—the railroad account particularly has its ups and downs and we are constantly transferring money back to the savings account."

Peoples Federal and Savings and Loan employee Hazel McCreery, questioned the following day, said, "There is a minimum of a \$10,000 deposit in order to obtain a CD term certificate."

"Presently," continued McCreery, "a term certificate pays 8.67 percent interest and must remain in Peoples Federal for six months." The interest rate is subject to weekly fluctuation, said McCreery.

A Peoples Federal Savings Pass Book acquires a daily interest of 5.25, said McCreery.

"Wilson even without 8.27 you could draw 5.5 in a pass book savings at Peoples Federal," entreated DeBlanc, "which is half a percent more than Gulf OPTION EXTENDED-PAGE 4A

FACEOFF - Bay St. Louis Municipal Separate School Board members meet with the North Bay Elementary Parent-Teacher Organization to discuss grievances and minor repair. Listening to the PTO's minutes are, from left, School Superintendent J. D. McCullough, school board member Robert Hamilton, school board President Virginia Gex, board members Walter Turcotte, Dr. John Levens, Maurice Singleton, PTO President Lana Noonan and PTO Secretary Janet Freeman. (Staff photo - Rich Adams)

PTO pressures Board for policy change

By RICH ADAMS

North Bay Parent-Teacher Organization President Lana Noonan asked the Bay St. Louis Municipal Separate School Board to eliminate communication barriers and do away with Policy 18 at a meeting of the PTO with school board members last week.

The meeting of the PTO with Board President Virginia Gex, Board Members Robert Hamilton, Maurice Singleton, Walter Turcotte, and Dr. John Levens, was the first meeting of both groups.

The combined meeting was formulated last week at a school board meeting.

Along with the board members, Bay Schools Superintendent J. D. McCullough and Bay St. Louis City Councilmen Harry Favre, Peter Benvenuti, and James Thriffley were also present.

The board agreed Monday to meet with the PTO to discuss "minor repairs" to North Bay Elementary. In a letter to the board, the PTO called Policy 18 "a cumbersome series of hurdles which create a barrier of communication between the trustees and the taxpayers they represent."

"At present, (Policy 18) works directly contrary to the benefit of education on which these policies are based."

The PTO requested the board act on the matter before October 30 in revising its policy to eliminate red tape involved.

in obtaining a place on the board's agenda.

The full text of the PTO's letter to the board appears on the Editorial Page of today's Echo.

Ms. Noonan presented a list of priority repairs and renovations to the school drawn up by the PTO.

The repairs are, in order of priority, removal of five temporary trailers being used as classrooms; renovation of heaters for the classrooms; playground area and equipment; and cleanliness in the classrooms.

Fran Trombley, a PTO member, asked board members if they had prior knowledge of a long-range construction plan introduced by McCullough at the Monday board meeting.

The plan includes removal of the temporary trailers and construction of a new 12 classroom school at a location between North Bay and Waveland Elementary.

Ms. Gex said the board had received the plan in piecemeal fashion, but Monday was the first time board members had heard the plan in full.

Hamilton said the board has been discussing the items on the plan over a 1.5-year period, and are finally putting the overall plan together.

"Our big priority is to remove the trailers," he said.

A PTO member asked the board why no "new permanent classrooms" were being added at North Bay to replace the trailers, as the long range plan presented last week by the board called for six new classrooms to be constructed at Waveland Elementary to replace the trailers.

"If new classrooms were built, we would need additional restrooms, a larger library, and a larger food service building. More office facilities would be needed," Hamilton said.

"I believe the school district will be better off physically and financially with a new school," he added.

Parents complained about inevitable

PTO seeks change in Board policy

12 October, 1978
Open letter to
Board of Trustees
Bay St. Louis Municipal Separate
School District
Bay St. Louis, Mississippi

Dear Board Members:

The recent efforts by our Parent-Teacher Organization to be placed on the agenda of your regular meeting and to be heard properly have been frustrated by Policy No. 18 of your Summary of Policies.

We realize that policies and procedures are necessary to prevent chaos at meetings where progress is supposed to be achieved for the benefit of our children. However, orderly meetings can be insured with simple procedures.

Policy No. 18, as written, is a cumbersome series of hurdles which create a barrier of communication between the trustees and the taxpayers they represent.

At present, it works directly contrary to the benefit of our children, which is the very foundation on which these policies are based.

We are asking you, at this time, to voluntarily revise this policy as follows:

1. Letters and multiple copies should be eliminated as a means of correspondence to administration, on all levels, and Board. Instead, telephone calls and or personal visits to the responsible parties should be adequate.

2. Applications to be placed on the agenda can be made any time during the month or at least ten days prior to the meeting. If space is not available on the agenda applied for, the party or parties applying are automatically given top priority for the following month. Confirmation should be given immediately upon application.

3. The party or parties applying should not have their constitutional right to freedom of speech limited through censorship. A general description of the problem to be discussed, such as discipline, dress

code, budget, administrative, etc. is all that should be required of the applicant.

4. In recognition of our constitutional right of assembly, any group that identifies itself properly and conducts itself in an orderly manner to discuss only school business, should be recognized. (As has been the Board's practice in selected instances in the past.)

5. Once recognized at the Board Meeting, the applicant should be allowed to address the Board directly without the intervention of the administration.

6. If a time element prevents the Board and the applicant from resolving a problem to the satisfaction of the applicant, a continuance should be granted the applicant at the next regular Board Meeting.

Other public bodies in the state utilize far less complicated means of establishing standing at their meeting; and have found these procedures to be workable and beneficial to maintaining open lines of communication with the taxpayers.

We feel that it not unreasonable to expect a revision of this policy by October 30. This will allow us to follow through the new procedure and be given a place on the agenda of the November 13 meeting of the Board.

We, who so desperately want to work for the benefit of our children, are prevented by Policy 18 and urge its revision with all deliberate speed.

We shall be looking forward to your prompt reply.

Signed:

Report from Gulf View Haven

October 9, 1978

Editor
Sea Coast Echo

Dear Sir:

I would like to alter some peoples' opinions of this place.

I believe that notes of this kind from time to time in your paper would help very much.

Sincerely,
Mrs. Dorothy Gaude
Resident,
Gulf View Haven

GULF VIEW HAVEN

Mrs. Janet Eadie was hostess to a surprise birthday party last Friday evening for Mrs. Dorothy Gaude.

"It happened in Mrs. Gaude's room with the table covered in lace, silver candleholders and champagne glasses that were provided for the event by Mrs. Schmidt, LPN.

"The toast was made by Mrs. Eadie, who then served the snacks and drinks. "It was intended to be an impromptu get-together, but pleasantly turned out to be a gala affair."

Waveland surf death brings court action

The U.S. Army Corps of Engineers is a principal defendant in a \$1 million damage suit filed in Biloxi's Federal District Court by the family of a 15-year-old New Orleans girl who drowned off the beach in Waveland last year.

The family of the late Chavel Consuela Price filed the suit in U.S. District Court in Biloxi, alleging the negligence on the part of the U.S. government, through the Army Corps of Engineers, and a construction company whose "true name is not known at this time" led to the girl's death.

The teen-ager was one of six persons who drowned in a "large hole" in the sand at 7:35 p.m. on June 4, 1977, while she was accompanying a church group on an outing "on the public beach of Waveland," the suit states.

The area where she drowned is "immediately adjacent to a recreational area and park," which was "under the control of the Corps of Engineers."

Prior to the girl's death, at least 21 others had drowned in the same hole, according to the suit.

The Corps and the construction company are guilty of negligence in the girl's death, the suit alleges, because "the hole was unreasonably dangerous

to persons reasonably expected to be in the area.

It constituted a hidden hazard and a deceptive condition because the area surrounding the large hole was very shallow in comparison to the area where it was located, according to the suit.

The hole was even more dangerous in that strong currents and undertows made it difficult for people to swim in the area," the suit continues.

According to the complaint, the Corps of Engineers and the construction company were negligent in that they approved or allowed a large hole to be dug where the girl drowned and the hole "constituted an ultra-hazardous" condition; allowed the hole to remain in the hazardous condition "for many years"; failed to supervise the area and to see that the dangerous condition was corrected; failed to post reasonable warnings of the danger; and failed to maintain "adequate and reasonable warnings of the danger."

The teen-ager's father, mother, sister and two brothers are suing for the loss of her "love, affection, society, companionship and support" under Mississippi's wrongful death statute.

In addition to \$1 million in damages, the family is seeking all court costs plus interest.

The Sea Coast Echo welcomes comments from its readers on subjects of general public interest. All letters must be signed, home address given and conform to published standards, be brief, in good taste and reason.

Sheriff Ladner eyes jail without fence

New jail cell will shelter 4 more

By LESLIE WILLIAMS

Construction of an additional cell at the Hancock County Jail to house four prisoners began September 28, and if it is not completed by November 30, it may never reach completion.

Sheriff Sylvan Ladner said a \$5,000 grant from the Law Enforcement Assistance Administration's Criminal Justice Planning Division has been given to his department to improve the county jail under a statewide program.

"But," said Ladner, "if the construction is not completed by November 30 the state will lose the grant."

The state and county will match grant funds with \$278 each, creating a total of \$5,556 to be used on jail renovations, reported Ladner.

The sheriff said a Bay St. Louis contractor, estimated cost of the jail addition at \$8,500.

Renovations include a 12 by 15 feet concrete cell with a steel door, lavatory, shower and steel bars to reinforce the windows, said Ladner.

"The County Jail presently doesn't meet state health specifications," said Ladner.

"Actually what we need is a new jail," exhorted Ladner, "we're trying to get federal funds to build one."

Even with the renovations to the jail, Ladner feels the facility will not meet state health standards, but "renovations will provide time extension in which to get the jail to meet health standards," Ladner explained.

Ladner said the new cell will probably be used for women inmates.

Ronald J. Artigues, a Bay St. Louis general contractor, has been tentatively chosen to do the renovations, said Ladner.

The Hancock County Jail is the oldest jail in Mississippi, built in 1937 by the Works Progress Administration, the sheriff said.

Sheriff Ladner also received approval from the Board of Supervisors Monday to purchase a \$6,200 car with heavy duty accessories from Turan Lane.

Bay Budget...

with \$21,952 for operations and \$7,317 for construction.

The budget allows \$27,780 for the library with \$17,562 going to operations and \$10,218 for retirement of building fund. The library also receives funds from the County, Waveland, State and Federal Government for operations.

Bay St. Louis Municipal School System will receive a total of \$844,112; giving \$886,132 for operations, \$85,597 for bond retirement and \$72,382 for note payment.

The School system receives other monies from the State and Federal Government to complete its budget.

A total of \$28,952 is budgeted for payment of bonds and notes of general obligations by the City.

McQueen said, the Bay St. Louis budget includes Revenue Sharing Funds.

Citizens can check at City Hall and see where these Revenue Sharing Funds are used.

National is paying, and we are free to draw it out anytime we want."

"So why put it at Gulf National," questioned DeBlanc.

"I don't want to do it that way," retorted Webre.

"You don't want to do it that way—but we want to do it that way," exclaimed DeBlanc.

"If you want to handle this matter—go ahead and handle it, it's alright with me," lamented Webre.

"We've just been putting the money in Gulf National out of custom," added Webre.

After the meeting Webre said that he previously could not put Commission funds into savings and loan associations because of federal banking regulations. He said those regulations have recently changed the regulation.

"Pass the resolution just as it is on the agenda and then David McDonald and I will remove that amount of money out of one of the accounts that is much more considerable than \$10,000," asked Webre.

"I don't think any of us are out of line for questioning this," said Commission

Member Ronald Artigues.

"I was appointed by a Hancock County Supervisor too," he said concerning his right to question the director's fiscal policies.

The Commission later unanimously approved the resolutions stated in the agenda, allowing the money to be placed in Gulf National Bank.

"I changed my mind about voting for the money to be placed in Gulf National Bank," admitted DeBlanc, "because Webre told me a greater amount than \$10,000 will be deposited in the Peoples Federal Savings and Loan Oct. 13."

"The additional money will come from various accounts," disclosed DeBlanc.

Members of the Commission also unanimously approved a resolution authorizing attorneys and proper officers of Port and Harbor Commission to draft and execute a warranty deed for Atlas Powder Co.

"They want us to put the wheels in motion to write up a deed, and have it ready for consummation of the sale of lot 50 in Port Blenville before Nov. 6, 1978," said Webre.

In Hancock County Court

Tardy Lawyers in contempt

By RICH ADAMS

Second Circuit Court Judge Rubel Griffin ordered arrest warrants issued for two lawyers last week on contempt of court charges after the pair failed to appear in court on cases they were defending.

Otto (Skip) Wismack of Gulfport and Roger Harris of Roger D. Harris and Associates of Biloxi failed to show up for their assigned cases, and Judge Griffin became annoyed ordered both attorneys arrested and lodged in jail.

"I'm going to put a few lawyers in jail for the weekend," said Griffin in court Thursday.

"The state and county put a lot of money into these cases, and I am not going to put up with (absenteeism)," he added.

"According to Circuit Court Clerk Henry Otis, Harris' partner went before Judge Griffin after the judge ordered Harris arrested and cleared the matter up with the judge.

Wismack, however, was ordered to pay a \$25 dollar fine as a result of the charges.

"Judge Griffin told me to go call the Harrison County Sheriff or arrest the lawyers himself and throw them in jail," said Hancock County Sheriff Sylvan Ladner.

In other court action last week, Glynn and Patricia Bannister and Ellarose S. Cardin took their battles against high property assessments to the courtroom.

The Bannisters are scheduled for two hearings, one on their battle with the Hancock County Board of Supervisors and another on their assessments in the City of Bay St. Louis.

The hearings are an attempt to have Bay St. Louis and the County re-assess

their property, which they claim is assessed too high compared to the other property in the area.

The Bannister's hearings are set for 9 and 11 a.m. Monday, October 23.

Ms. Cardin's quarrel with the Hancock County Board of Supervisors is scheduled to be heard in court at 10 a.m. on the same day.

Also last week, a jury found Robert Dotilla guilty of burglary of a dwelling and Dotilla was sentenced to three years in the state penitentiary, concurrent with a two-year term stemming from a similar charge in Harrison County.

Jimmy D. Smith was also found guilty of burglary of a dwelling and sentenced to three years in a state penitentiary.

Elvie Roberson was given a suspended \$250 fine for disorderly conduct against an officer.

Circuit Court Judge Leslie Grant, indicated late Friday he will be prepared to open the Charles Depreo trial Monday morning.

The judge reportedly told Second District Court Administrator Gail Parker to inform Hancock County Circuit Court Clerk Henry Otis to have a jury venire prepared Monday morning for the trial.

Earlier last week, the judge said he might possibly be held over in Gulfport on continuation of a trial there over which he was presiding.

Judge Grant will preside over the trial of Charles Edward (Char) Depreo who is charged with armed murder of Janice Ladner on April 8 and aggravated assault on six-year old Lynn Ladner.

PTO Pressures... CONTINUED FROM PAGE 1

relocated. He said he was waiting an insurance settlement before he could reorder the supplies.

McGulough said the school supplies could be ordered immediately, using credit, and could be paid off when insurance money arrived.

Sills said he would order the supplies Monday, but a six-to-eight-month period before delivery could be expected.

PTO members offered to drive Jackson in personal trucks to pick up the supplies, but Sills said most of the supplies were from suppliers in Chicago.

Air conditioning for North Bay was discussed, and the possibility of obtaining window units with PTO funds was discussed.

Ms. Gex told the PTO to get estimates on the air conditioners, and have an electrical survey conducted to get an estimate on electricity consumption, and said the board might consider approving the units on next year's budget.

Ms. Noonan closed the meeting by thanking the school board for attending the meeting and hearing the PTO's grievances, expressing a desire for continued communication between the two organizations.

"I'll work with anyone who wants to discuss anything with me and I'll personally bend over backwards to help," Turcotte said.

"But first go through the chain-of-command. Let's stick together as one big family," he added.

"The school board is too busy thinking of the past and planning for the future to do anything about the present," said Anthony Loicano, PTO member.

Board Member Maurice Singleton said the meeting was "good...we all need to bring out our points."

"The school board and superintendent set priorities. We need to know your priorities and bounce them against each other," he added.

Nell Woodall, a teacher at North Bay, said the PTO is primarily interested in the education of the children.

"We can compare a child's education to a builder building a house. If the construction is going to last a lifetime, a builder has to start with a good foundation, add walls, and then a roof," Ms. Woodall said.

"We're building foundations for the children at Waveland and North Bay. How does your long-range proposal affect these children? No project at the senior high will help a child here now," she added.

"North Bay teachers are the most dedicated I have ever seen. We can only do so much, and we need your help now," Ms. Woodall said.

The board recommended the PTO seek assistance from Hancock County Beat Three Supervisor Oscar Peterson in obtaining asphalt for the playground for a basketball court and around the swings.

The PTO feels the sandy playground is a major reason for uncleanness in the classrooms.

McGulough said North Bay Principal Billy Sills could request more janitors to keep the school clean if Sills felt it was necessary.

Ms. Noonan complained about heat in the classrooms, stating last year the heaters were not working and children were exposed to the cold during winter.

McGulough said the heaters are being repaired, and bids will open to obtain a heater to replace one heater which cannot be repaired.

Sills reported that about \$2,000 in school math and reading supplies had been stolen in August from the cafeteria, and no supplies had been

Stanislaus wins 19-0

Yellow Jacket sting controlled by Rocks

By ELLIS CUEVAS
A St. Stanislaus Rock-A-Chaws Homecoming victory secured by outstanding defensive play was witnessed at the Rock stadium Friday.

The Rock-A-Chaws defeated St. Martin Yellow Jackets 19-0 when the defense recovered five fumbles, blocked two punts and stole the ball.

Head coach Bill Poole highly praises for his defensive team at the end of the contest. "Our defensive team did a fine job as a unit and outstanding defensive pass play was turned in by Marc Ponder and Juan Betanzos," Poole said.

Recovery by John Logan of St. Martin fumble on the Rocks 30 set up a TD in the first quarter.

On the Rock-A-Chaw eighth play, quarterback Peter Bernheim was back to pass and received a big rush and scooted to his right for a 12 yard score. On the point after, a Charles Armato kick was blocked by a fired-up St. Martin defense. With 6:34 left

in the first stanza the Rocks led 6-0.

After several exchanges of the ball, a Scott Senner punt put the ball to St. Martin's four yard line. St. Martin's second play developed into a fumble recovered by Jamie McKeough on the Yellow Jacket six. Keith Pfister took a hand off from Bernheim and scored on the Rocks first play after the recovery as the first quarter ended. A two point pass conversion attempt was knocked down by the Yellow Jackets.

Aggressive defensive play by both teams shutout scoring in the second and third quarters.

In second quarter action, St. Martin was trying to get something going and had to punt. Mike Scardino got a piece of the ball and Randy Santa Cruz recovered on the 36 of St. Martin. The Rocks moved to the 11 yard line before a series of flags for infractions moved the ball back to Rock territory. The half ended with the Rocks leading 12-0.

During halftime ceremonies, Homecoming queen Melissa Treutel was escorted on the field by her father David Treutel. The queen was preceded by her court of Cheryl Hammack, Delarie Ladner, Elizabeth Santa Cruz and Virginia Vegas, who were escorted by their fathers.

In the third stanza, a St. Martin pass hit a Rock defensive back on the helmet and it was caught by Glenn Logan for a pass interception. Late in the third quarter the Rocks drove to the Yellow Jacket 14 and were pushed back to the 44 on a penalty and Bernheim being sacked for a loss. Senner put another punt deep in Yellow Jacket territory, dead on the four yard line, his second of the night inside the five.

Mike Scardino made his second recovery of the night in the fourth quarter putting the Rocks in good field position on the Yellow Jacket 25. The Rocks threatened but were denied a score when a fumble on about the two yard line was

recovered by the Yellow Jackets in the end zone for a safety, giving them the ball on their own 20.

St. Martin gambled late in the fourth stanza when they tried a pass from their own 26 which was incomplete and the Rocks took over again in good field position. Bernheim got the offense moving and on the fifth play hit end Fred Keel for six points. Armato's kick was good giving the Rocks a 19-0 lead with only 1:31 left in the contest.

Offensively, the Rocks were sluggish at times, we couldn't hit the open man on passes in the first half, of course St. Martin's defense was good. We made a lot of mistakes, but in a very aggressive game I think any team will make some mistakes which cost them in yards, lost to penalties", stated coach Poole.

Coach Poole added that he was happy for the victory and would be getting ready for the City championship against Bay High next week. "Bay High has a good team and if they could get everyone healthy we will be in a rough contest", he said.

In statistics the Rocks dominated 13-7 first downs, 175-94 on the ground and 23-7 yards passing. In penalties the Rocks had 9-95 yards and the Yellow Jackets 7-72.

Senner had a fine night punting four times for a 38 yard plus average.

DEFENSE SHINES FOR ROCKS-A Yellow Jacket is caught in a swarm of Rock-A-Chaws as he tries to pick up yardage by the ground Friday. Stanislaus' defense shutout St. Martin enabaling the Rock-A-Chaws to capture a 19-0 victory. (Staff photo-Ellis Cuevas)

Lang scores 3 in Pirate 35-13 win

By RICH ADAMS
A 94 yard opening kickoff return by Pass Christian's Gene Lang led off a 35-13 Pirate win Friday over the St. John Eagles in Gulfport.

Lang added two more touchdowns after the opening score, and was leading rusher for the Pass squad.

"We needed the win bad," said Pirate head coach Bob Lumpkin.

"We got a good start with the opening run, but St. John controlled the ball most of the first quarter," he continued. Lumpkin's defensive squad has had past problems controlling the ball, and Lumpkin said they played good defense after the first period.

"We generally played a good game, but we have to work on some maneuvers before next week's game against East Central," he added.

St. John scored in the first quarter on a six yard run by

Kevin Gray with 1:47 remaining in the first stanza. Dean Stringer kicked the extra point, and tied the score 7-7.

In the second period Virgil Swanier scrambled into the end zone from 33 yards out, and then hit Lang for a two point passing conversion.

Robert Bailey scored in the second quarter for the Pirates on a 50 yard punt return, and Swanier kicked the PAT.

In the third period Lang scored again from 16 yards out and Swanier converted. St. John made an attempt to come back in the third quarter with a 12 yard pass from Carl Funk to Clayton Bechard.

The extra point was blocked by the Pirate defense. Lang scored again in the final stanza with a two yard scoring dive, and the extra point was wide.

Pass Christian is now 4-2 for the season, and travels to East Central next Friday.

HAND OFF-Hawk quarterback Vincent Adams, No. 10, hands the football off to Willie Santiago, No. 45, as No. 33, Greg Ladner prepares to run interference for Santiago. The Hawks ran for 161 yards in Friday's 33-13 win over PRC. (Staff photo-Rich Adams)

Adams 'outstanding'

Hawks extinguish Blue Devil fire

By RICH ADAMS
Hancock North Central quarterback Vincent Adams ran for three touchdowns and passed for three other Hawk scores as they downed the Pearl River Central Blue Devils Friday night 33-13.

The win was the seventh of the season and the 18th consecutive regular season victory for the Hawks, who remain undefeated this season.

"We played a poor offensive first half," said Hawk head coach Irvin Favre.

"We had the opportunities, but never scored the ball. The defense did a fine job during the first period, but the offense was just flat," he continued.

"In the first half we just didn't have the sharpness to put the ball in the end zone," he added.

"Vincent Adams played one of his better games of the year, and did a fine job of directing the team on offense, both throwing and passing," Favre said.

The score at the end of the half was even, 6-6, but the Hawks exploded in the second half with 27 points to win.

The Hawks led off by kicking to the Blue Devils. Both teams had possession of the ball and, after short possessions, were forced to punt.

The Hawks punted and PRC runners decided to let the ball roll into the end zone, but Willie Santiago, HNC fullback, downed the ball on the PRC 2

yard line before it could roll into the end zone.

The Blue Devils were forced to punt from their own end zone, but Rene Baum of the Hawks blocked the punt. The HNC squad took the ball first-and-ten on the PRC three yard line.

The Hawks were unable to move the ball against a tough PRC defense, and had to attempt a 15 yard field goal. A low snap broke up the play, and Pearl River took over on their own 20.

In the next series of downs, the Hawks were forced to punt, but a PRC runningback fumbled and Gene Breazeale

recovered for the HNC eleven on the 50 yard line.

Seven plays later Adams passed to Nelson Crosdale for a 25 yard score.

The point after attempt was no good, and the Hawks had a 6-0 lead with 1:14 remaining in the first quarter.

Pearl River bounced back and a 25 yard David Clave pass to Mike Lowrey tied the game.

The conversion attempt failed, and the score was 6-6. Late in the third stanza Pearl River fumbled and Baum recovered the loose ball on the PRC 27 yard line.

Adams kept the ball on the next play and took a 27 yard romp around the left side to score with 2:09 left in the quarter.

"We made adjustments at half time," said coach Favre. "We told the team they were a good football team, and had to get off their heels and play like a good team," Favre continued.

"I think the players just rose up and decided to go play football," he added.

Jesse Draime kicked the point after to give the Hawks a 13-6 lead.

The next time HNC had the ball, Adams hit David Clark with an 83 yard scoring pass.

"The bomb was the psychological breaking point of the game," said coach Favre. The pass came with 10:58 remaining in the game.

The point after by Draime was good, and the score was

20-6.

Adams intercepted a Quave pass two plays later and the Hawks took possession of the ball at mid-field.

Six plays later, Adams connected with Byron Ladner for another Hawk score, this time from 24 yards out.

The conversion attempt was no good.

Hawk head coach Irvin Favre, sitting on a 28-6 lead, substituted his defense with the second string, and the PRC squad started moving.

In ten plays covering 70 yards, the Blue Devils scored when Kendall McClinton, substituting for injured quarterback Quave, ran 20 yards to score with 5:51 remaining in the game.

The conversion attempt was good, and the score was 27-13.

The Hawks took the ball on the PRC 32 yard line, following a failed outside kick attempt by the Blue Devils.

Eight plays later, with 2:22 left in the game, Adams scored on a three yard dive into the end zone.

Draime's point after was good, and the Hawks capped a victory, 33-13.

Both teams were close in statistics, the Hawks running for 161 yards and the PRC squad for 164.

Adams was four for eight for 117 yards, and the Blue Devils were six for ten for 88 yards.

The Hawks travel to Pine, La., for a 7:30 p.m. game across the state line.

night at Rock-A-Chaw stadium.

Although the Tigers lost, they were in the game until the final minutes. In summary this was a very exciting game. Both teams made some outstanding plays. The crowning of the queen at halftime and presentation of the homecoming court all made for an enjoyable evening.

The third quarter was mostly a defensive struggle with the only score coming with 3:28 remaining. Tiger quarterback Chuck Benigno passed to Jonathan Lewis for a 43 yard TD. The PAT by Rod Stieffell was good to make the score 27-21 in favor of Vancleave.

Late in the fourth quarter Vancleave scored two more TD's to put the game out of reach. The final score was 40-21.

"We wanted to win", commented head coach Billy Rhodes. "I am very pleased with our performance, we used a lot of our younger players. Seven of our starters are out with injuries which hampered our efforts," he added.

Bay High, 1-6, faces crosstown rival St. Stanislaus with a 4-2 record next Friday.

Bay High lost the lead for good when Pete Batson took a punt and ran 95 yards for a score. A two point conversion

try was not good giving the Bulldogs a 19-14 edge with 3:40 remaining in the first half.

Vancleave scored again with the help of a pass interference call. The two point conversion was good and the halftime score was Bulldogs 27 and Tigers 14.

The halftime activities were exceptional with both bands putting on a fine show. The Tiger Pride band led the field to a standing ovation.

The third quarter was mostly a defensive struggle with the only score coming with 3:28 remaining. Tiger quarterback Chuck Benigno passed to Jonathan Lewis for a 43 yard TD. The PAT by Rod Stieffell was good to make the score 27-21 in favor of Vancleave.

Buccaneer Crew Notes

Sherry Price

The weather was as pleasant as the campers who spent last weekend at Buccaneer State Park. The 104 campsites were filled and the overflow carried to our Primitive Camping area. Fall weather has brought many campers out of the house to enjoy the relaxing atmosphere of Buccaneer.

Among those camping last weekend were the Metro Rambling Sams, Chapter of Good Sam campers out of Jackson, Ms. Fourteen of the club members camped in Blackbeard The Pirate loop.

Those camping for their October meeting were Mr. and Mrs. Johnnie Taylor, Mr. and Mrs. Thomas Brown, Mr. and Mrs. George Berry, Mr. and Mrs. Turman Milley, Mr. and Mrs. J. D. Garner and Mr. and Mrs. Marshall Sanford.

The Metro Rambling Sams were guided on the Old Hickory Nature Trail Saturday morning and grocery games were scheduled for Saturday evening entertainment. The highlanders tried their luck at floundering, but to no avail.

Mrs. Myrtle Strange of Gautier, Ms. gave them crab eating tips which helped them out greatly as the Good Sams held a shrimp boil during their stay.

WINNERS
The following were winners in grocery games last Saturday evening:

Truman Milley, Jackson, Richie Ferrier, 9, Chalmette, La., son of Mr. and Mrs. Richard Ferrier; Marilyn

North, 13, Bay St. Louis, a daughter of Mr. and Mrs. D. W. North; Pam Ladner, 11, Nacaise Crossing, daughter of Mr. and Mrs. J. C. Ladner; Johnnie F. Taylor, Jackson, Karen Rutledge, 11, Chalmette, La., daughter of Mr. and Mrs. Richard C. Rutledge; Chris Vitter, 19, Pontchartrou, La., son of Mrs. Shirley Vitter; Dina Darce, 8, Morgan City, La., daughter of Mrs. Bill Darce, Jr.; Mrs. Ruby Perilloux, Madisonville, La.; Mrs. Pat Joyce, Gulfport; Caroline Brooks, 10, Slidell, daughter of Mr. and Mrs. Bob Brooks; Kim Ivanczyk, 8, Bay St. Louis, daughter of Mrs. Mary Beth Ivanczyk.

Winning in the Sunday morning Pin Ball Show Down were: First, Marilyn North, 13, Bay St. Louis, daughter of Mr. and Mrs. D. W. North; Jr.; Second, Richie Ferrier, 9, Chalmette, La., son of Mr. and Mrs. Richard Ferrier; and third, Jessica Brooks, 8, Slidell, daughter of Mr. and Mrs. Bob Brooks.

RECREATION
OCTOBER 15
Sunday 11 a.m. Story Time
12 p.m. Scavenger Hunt
1 p.m. Spelling Games
HALLOWEEN FUN
Keep in mind the month's end, October 28, at Buccaneer for those camping, we will have lots of fun and games to celebrate the holiday. Plans are now being finalized and will be announced later. Keep Buccaneer State Park in mind, I am sure it will be a fun time for the little ones.

LOOKING FOR A RECIEVER-Bay High quarterback Chuck Benigno, No. 10, is pursued by a Vancleave player as he looks for an open receiver. Vancleave defeated the Tigers 40-21. (Staff photo-Randy Ponder)

Retardation Center opens Thursday

The South Mississippi Retardation Center, Long Beach, is planning the dedication of new facilities Thursday, Oct. 19.

All interested persons are invited to attend the ceremony at 2 p.m.

Tours of the center will follow the ceremony, according to William H. Staley, Jr., Director.

Speakers will be Dr. Paul D. Cotten of Ellisville, director of the division of mental retardation for the State Department of Mental Health, and Dr. L.G. Hopkins of Oxford, chairman of the State Board of Mental Health.

The facility, located at 1170 West Railroad St., Long Beach, is state-owned, serving mentally retarded individuals in George, Hancock, Harrison, Jackson, Pearl River and Stone Counties.

Present facilities completed and being utilized are diagnosis and evaluation administration building, one residential cottage housing 24, and a support services building.

Staley said two additional cottages presently under construction are scheduled for occupancy next spring and will each also house 24.

Plans are also underway to begin construction of a central dietary building, he added.

Staley said subsequent phases of construction will consist of several cottages, developmental and vocational training buildings, a skilled nursing home, and a central administration building.

The completed retardation center will have space for approximately 240 individuals.

Each residential building will reflect a home-like

character to the extent feasible, he noted. Additionally, programming will be done on the basis of small family groupings which will allow more individualized treatment and instruction.

The center will offer comprehensive services, beginning with diagnosis and evaluation, to individuals coming into the facilities, as well as services to community clients to the extent possible.

And SMRC staff will seek to spur the development of additional community services which could provide an alternative to SMRC admission.

CONCERNED CITIZENS - Rev. Johnny Saucier, standing, president of Concerned Citizens, makes a point on the group's current efforts to secure lower and more stable utility bills. Concerned Citizens plan to circulate a petition urging the mayor and council of Bay St. Louis to "take all necessary action to curb the rising costs of utilities and (to) do everything in their power to protect (the city's citizens against) any future increases by the gas companies." Also attending the group's recent meeting are, from left, Mrs. G. O. Daniels; Albert Walker, back to camera; Joe Tate, attorney; Bill Johnson, city utilities supervisor; Mayor Larry Bennett; Gerry Lang; and Rev. Saucier. (Photo by Jimmy Lolacano)

Mental Health offers Program

The Gulf Coast Mental Health Center which serves children from birth to age three, according to Dr. G. Kinsey Steward, director.

Church opens fund drive

The First Missionary Baptist Church recently launched its first annual "Community Birthday Calendar" fund raising program said Deacon Howard Sheppard, chairman.

Rev. Dr. Lawrence Collins explained to the membership that the unique calendar will be of special interest to the community as it will contain scheduled church programs and activities. It will also contain birthday and wedding anniversaries or each family contacted by the First Missionary Baptist Church Committee.

Advertisements on the calendar will be handled by

Dorothy Davis and R.A. Robinson. Local merchants will be contacted to purchase an ad on the calendar.

A picture of special interest will top the calendar and the committee expects to announce what picture it will be at a later date.

Assisting Sheppard will be team captains Ethel Thompson, Ruby Lewis, William Davis, Mary Parker.

Funds will be used for the welfare of the church. The campaign will begin Oct. 15 through Oct. 27. The First Missionary Baptist Church is located at the corners of Sycamore and Third Streets.

"The Preschool program offers help and training to children who have cerebral palsy (CP), learning disabilities, speech difficulties, emotional disturbance, epilepsy, mental retardation, blindness, deafness, muscular dystrophy (MD), multiple sclerosis (MS), arthritis, physical and brain deficiencies, and are suffering from neglect and abuse.

The program also provides counseling and assistance to parents who have a child enrolled in the program.

The hours are from 9 to noon Monday through Friday. The classes are located in the Gulf Coast Mental Health Center, 4514 Old Pass Road, Gulfport. (Across from Memorial Hospital)

Staff available to provide services includes counselor, social worker, speech therapist, teachers, and child psychologist.

Fees, if any, are determined by the Department of Public Welfare.

By starting early, in the first three learning years, a child has a better possibility of developing to his full potential.

The Preschool Program is funded in part by the State Department of Public Welfare.

For further information concerning the Preschool Program, call the Gulf Coast Mental Health Center at 1-863-1132 (Ext. 254). This is a toll free call.

Littering will cost says Chief

Bay St. Louis Police Chief Douglas Williams warns the police department will enforce the city's littering ordinance.

It is now against the law to throw, drop or place any kitchen waste, refuse, trash, paper, cans, bottles, fruit skins or other material or substance upon the street, alleys, sidewalk, neutral grounds, municipal buildings, premises, play grounds, beaches, parks, drainage pipes, ditches, vacant lots, or any other property within Bay St. Louis.

All violators will be prosecuted to the fullest extent of the law, says Williams. The ordinance was adopted Feb. 2, 1970, said Chief Williams.

THIS WEEK'S WINNER—Andy Pernicelli, right, Rt. 2 Box 116B, Bay St. Louis, receives a \$10 check from the Sea Coast Echo General Manager Randy Ponder as winner of this week's Sea Coast Echo Football Contest. "I just know my team," said Pernicelli as he received his check. (Staff photo—Rich Adams)

DON FAVRE

Favre named prexy

Don Favre was named new president of the Bay St. Louis Kiwanis Club at an installation banquet at the Wheel Inn on US-90 last week.

Jim Montgomery, Mississippi Lieutenant Governor, was guest speaker at the banquet.

Other incoming officers are Ernest Mitchell, vice-president, and Randy (Taot) Tartavouille, secretary-treasurer.

Outgoing officers are Chuch Breath, president; Don Favre, vice-president; and Lennie Rupp, secretary-treasurer.

MMA's Harvey tells dates of district meets

Mayor Harris Harvey of Pearl, president of the Mississippi Municipal Association, said a series of 10 district meetings have been scheduled for municipal officials throughout the state.

Each of the host cities will begin its meeting with a host-city reception, followed by a dinner, planning and development districts will have a short presentation and the meetings will conclude with a presentation of the 1979 MMA legislative program.

All city officials and legislators are invited to attend the meeting scheduled nearest their municipality.

Dates of the meetings, locations and meeting places are: Oct. 9, Holiday Inn Northeast, Meridian; Oct. 10, Ramada Inn, Starkville; Oct. 11, Ramada Inn, Tupelo; Oct. 12, North East Mississippi Junior College, Booneville; Oct. 13, Warehouse Restaurant, Clarksdale; Oct. 14, Ramada Inn, Greenville; Oct. 15, Grenada Lake, Grenada; Oct. 23, Holiday Inn, McComb; Oct. 25, Ramada Inn, Hattiesburg; and Sun-N-Sand Motel, Jackson, on Oct. 26.

**Military
Mention**

AIRMAN A.C. CARLSON
Airman Ashborn C. Carlson, son of Navy Chief Petty Officer and Mrs. Ashborn C. Carlson of 2112 Second St., Long Beach, has graduated at Sheppard AFB, Tex., from the U.S. Air Force technical training course for aircraft maintenance specialists.

Airman Carlson, who was trained to maintain, repair and service aircraft currently in use by the Air Force, is being assigned to Eglin Air Force Auxiliary Field No. 9, for duty with a unit of the Tactical Air Command.

Completion of the course earned the individual credits toward an associate in applied science degree through the Community College of the Air Force.

The airman graduated from high school in 1976.

PAUL MILLER, II
Paul Mixson Miller, II, Hickory Lane, Bay St. Louis, has been awarded a master of arts degree in the Ball State University and Air Force-sponsored graduate studies programs offered in Europe. Miller studied for his degree with a major in counseling at the U.S. Air Force base at Zweibrücken, Germany.

He earned his bachelor's degree in 1965 at Millsaps College in Mississippi.

AICT.R. FRIERSON
R. Frierson, son of Mrs. Sally C. Barret of 15801 Belmont Dr., Biloxi, Miss., has deployed with his unit to Camp New Amsterdam, Netherlands.

Airman Frierson is a security specialist with a unit of the 1st Tactical Fighter Wing at Langley AFB, Va.

The airman is one of more than 200 maintenance and support personnel from Langley taking part in project Coronet Sandpiper. They will assist the 32nd Tactical Fighter Squadron, based at Soesterberg Royal Netherlands Air Base, transition from the F-4E Phantom to the F-15 Eagle aircraft.

U.S. Air Forces in Europe Vice Commander, Lieutenant General Benjamin N. Ballis said, "the F-15 represents an extremely efficient and dramatic increase in our (U.S. Air Force) commitment to the North Atlantic Treaty Organization. It is a key part of our defense readiness initiative to counter Soviet Warsaw Pact air forces."

Airman Frierson is a 1976 graduate of St. Martin High School. His father, retired U.S. Air Force Senior Master Sergeant Tommy R. Frierson, lives on Rt. 370, Ocean Springs.

Skimmers, Kittiwakes among Hancock Coast's gull varieties

Staff Photos by Randy Ponder

While the other birds retreat from man's encroachment on the world, gulls - the "garbage pickers" of the winged kingdom - thrive on man's presence. "Chances are, whatever people do, the gulls are here to stay," prophesies a recent issue of Ranger Rick's Nature Magazine.

Gulls, which live near the sea and far inland as well, are exceedingly adaptable, according to the monthly children's publication of the National Wildlife Federation.

For instance, where garbage or dirty harbors have driven away other wildlife, gulls flourish.

Often called "seagulls" - even in localities far from the ocean - the adult birds are sturdy and strong and, especially for birds, are almost "unflappable."

They adapt to almost any conditions and, according to Ranger Rick, "few birds can walk, swim and fly as well as gulls."

They sometimes catch live fish, but they're not "picky eaters." In fact, they usually eat dead fish and garbage. If the tide is low, they may feed on marine worms and crustaceans.

Whatever's handy.

Inland gulls eat worms, mice, grasshoppers, and other insects. They are "farmers' friends" because they feed on so many of the insects that kill crops.

Even their drinking habits are nonchalant. Either fresh or salt water is fine, although they seem to prefer fresh, comments the magazine. When salt water is all that is available, special glands in their head remove the salt from their blood.

Being "clubby" birds, gulls rest, feed and fly in noisy, chattering flocks of anywhere from a few to 5,000 birds. If one gull finds food it dives with a loud hoot, "flashing its white underparts," and signalling "food!" Soon, observes the magazine, the air is filled with "screaming, darting birds, eager to feed."

When cold strikes and food becomes hard to find, gulls still seem rather unconcerned. Some migrate in small flocks to warmer climates. Others stay at their breeding grounds. Many of them die of starvation.

The gull's breeding season usually lasts from March through August. Some of the colonies are very small, but some have as many as 20,000 noisy, breeding pairs of nesting gulls.

Housing seems to be another indifferent decision for the carefree gulls. They build their nests on flat places along seashores, on islands, in marshes, on cliffs of even on building ledges.

(Editors note: Oliver Houch, official of National Wildlife Federation, will address the annual meeting of Mississippi Wildlife Federation at 7 p.m. Saturday at the Sheraton Biloxi. Information and tickets are available from Frank Ladner of Bay St. Louis, 467-7130.)

The Ole Pastor Says

Man, created in the likeness and image of his Maker, is the masterpiece of God's creation. Being in the likeness of our Creator, we are eternal beings of a higher order to be governed by moral laws of a divine source and purpose. Unlike all other creatures, we are eternal beings with an intelligence, and a conscience existence forever.

Our bodies and minds, though now depraved by nature, were never intended to be instruments of habitual lawlessness nor in any way abused and exploited for the satisfaction of carnal lust. God's Word says, "Let not sin therefore reign in your mortal body, that ye should obey it in the lust thereof. Neither yield ye your members as instruments of unrighteousness unto sin..." Romans 6:12-13.

No informed thinking person questions the lamentable fact that an unprecedented wave of immorality is sweeping the world today. History attest to the fact that when a people's morals become perverted, mental and cultural decline sets in, and character is rapidly dissipated and destroyed.

Perversion of the sexual aspect of human nature is increasingly common and publicly approved. Every person needs to know what God has said in Holy Scripture about the various forms of sexual sins.

We are living in a degenerate society, born of a permissive and morally irresponsible generation before us. The mobility of the population, the popularizing of sin by mass media (television, radio, and printed materials), the increasing boldness of sinners who flaunt their depravity, and the lessening of authority by which immorality is kept in check indicate how far our society has gone into such sinful indulgences.

This kind of immorality, more than any other, disrupts and finally destroys the home, the foundation of any lawful society. Matrimony is a divine institution. When its sanctity is violated, disorder soon permeates the entire structure of society, and finally brings the judgement of God.

The world changes under the powerful influences of sin. But God has not changed. His standards of right and wrong have not changed. His attitude toward such base immorality has not changed. His law of sowing and reaping has not changed.

The only hope for the world is a return to the principles of Bible standards. Anything short of that will not do. "Righteousness exalteth a nation; but sin is a reproach to any people" - Prov. 14:34.

Santa gets help from Pole airmen

For the 24th year volunteers of an Air Force unit in Alaska will conduct their Santa's Mailbag program, to send letters from Santa Claus to children throughout the world.

People who would like a child to receive a letter from Santa Claus postmarked from the North Pole, should first write the letter. Then the letter should be mailed with a stamped envelope addressed to the youngster to:

Det. 2, 11 Weather sq.
Santa's Mailbag
Eielson AFB, Alaska 99702
Volunteers from the detachment will personalize the letter with Christmas illustrations and mail it back to the child from nearby North Pole.

Through the years, the program has returned about 165,000 letters.

News Brief

RETIREMENT LAW

Elderly Americans won't be the only ones affected by a new law that extends the mandatory retirement age by five years, says Dr. Gary Mooers, director of the social work program at the University of Mississippi. Dr. Mooers, who has worked extensively on topics related to aging, says the full impact of the new law will not be known for some time after it goes into effect Jan. 1. Points cited in favor of the new law, Dr. Mooers says, are that it will provide relief for the Social Security system and for private pension plans by extending the number of years workers are contributors and shortening the period in which they receive benefits, and that older workers will become more important to society as their numbers grow because of increased longevity and the young adult population decreases because of lower birth rates.

\$500.00 REWARD
For information leading to the arrest and conviction of the person or persons firing Shot Gun blast into the B&W Grocery and residence in Pearlinton about 6 a.m. on Oct. 1, 1978. CENSUS TO BE TAKEN

J.D. McCullough, Superintendent of City Schools, states that in compliance with House Bill 119 signed into law on April 15, 1977 a Census must be taken of all the educable children within this school district during the month of October, 1978.

In compliance with this bill, this Census will be taken on Wednesday, October 18, 1978. On Monday, October 16, the students of this school district will be given a form which is self-explanatory. Parents or guardians are asked to complete said form and have it ready on October 18 at which time the personnel of this school district will call at your home for this Census form. Your cooperation in this matter will be appreciated.

Like a good neighbor, State Farm is there.

County Agent's Notes

by John Smith

SALT LICKS AND DOMES

While salt domes beneath Mississippi soil surface have been in the news periodically and scientifically as potential storage reservoirs, Mississippi farmers historically have dealt with "salt licks" on their farms as a somewhat baffling phenomena.

Bill Moore, director of the Mississippi Geological Survey, recently gave this column an update on the salt dome situation underlying Mississippi and went on to disclaim a connection between farmland salt licks, on the surface, and salt domes, which in every instance in this state, occur at least 700 feet underground.

A salt lick, in the experience of this writer, is a bare spot in a field or pasture where certain chemical deposits are in the soil which virtually sterilize the surface soil so that crops or vegetation will not grow in that particular spot. They may vary considerably in size but those of my knowledge in Hinds county are roughly circular spots varying in diameter from perhaps 50 or 75 feet to an area several times that large.

The name "salt lick" is derived from the fact that cattle, deer, or other animals will visit them to lick the soil for the sake of the salt or other

minerals present in a rather high content. Sometimes the animals leave indentations in the soil from their licking such as found on salt blocks which farmers usually provide for that purpose.

State geologist Moore reported that salt domes are subterranean deposits of sea salts which have been laid down far back in time in central and south central Mississippi with the exclusion of the three coastal counties. There are 50 or more mapped domes in this area. Moore relates, which are being studied from time to time as storage sites for nuclear wastes, oil, gas, etc.

Mississippi's dome closest to the surface is near Hattiesburg at Richton and currently is being utilized as a storage reservoir for LP gas. To prepare it for such storage it was necessary to drill down 700 feet to the top of the dome, then drill into the hard zone of rock salt, and then pump water into the drilling to dissolve the salt which is pumped out to form the desired cavity for underground storage.

The origin of salt domes goes back almost 200 million years, geologists tell us, to the time that dinosaurs inhabited the inland and coastal marshes. At that time a shallow salty sea covered the Gulf Coast area and south

Mississippi and huge deposits of salt were laid down. Gradually the salt was covered with layers of sediment, many thousands of feet thick. Over the ages these layers hardened into sedimentary rocks such as sandstone and shale.

But the salt, or sodium chloride, has two unusual properties different from the rock layers in that it is lighter in weight and it can change shape like warm plastic. So as thick layers of rock pressed downward rounded plugs of salt were formed that worked upward through weak spots in the rocks, like bubbles in molasses, to move closer to the earth's surface over the span of many thousands of years. Some still lie deeply, more than a mile, below the surface - while others in some states including Louisiana came to the surface. At Avery Island, Louisiana, as one example, surface mining of the salt for commercial purposes has occurred.

A salt dome may be a mile and a half or more in diameter, and extend two to four miles in depth like an iceberg. These domes make highly efficient pressurized storage compartments. Propane and butane were the first hydrocarbons stored in them and a cost of but one-tenth of more conventional

storage methods for pressurized storage. Besides the economic advantages, crude oil stored underground is relatively safe from sabotage and fire since the only entry into the cavern is via pipe.

A dome storage project is proposed for Louisiana near New Orleans which would take in oil from tankers at the rate of 100,000 barrels an hour, and later deliver it into the pipeline system at the rate of 80,000 barrels an hour.

Meanwhile back on the surface of Mississippi farms the "salt lick" phenomena remains a minor production problem for farmers and a bonus for animals.

Dr. Dave Petry, professor of soil science at Mississippi State University, reports that a three year study of salt licks is underway in the state which, when completed, will offer some remedies to this condition for state farmers.

The study to date reveals that salt licks are fairly widespread over the state. The sodium soils come from surface conditions rather than subterranean, and affect the soil to about 20 to 40 inches in depth. Many are deep spots near the base of hills or in a low spot where displaced minerals and salts are deposited similar to the situation at the Dead Sea.

Catfish cooking contest is Nov. 15

Mississippi cooks who pride themselves in their catfish-cooking ability should plan to enter the fifth annual National Farm-Raised Catfish Cooking Contest.

The contest, scheduled Feb. 1 in Jackson, will be one of the highlights of the annual convention and trade show of the Catfish Farmers of America, according to John Wilson, marketing specialist, Mississippi Cooperative Extension Service.

"This contest is open to both men and women," says Wilson. "Entry forms may be obtained at the Extension home economist office in each county. Recipes will be screened and those whose entries are selected will be eligible to compete in the National Farm-Raised Catfish Cookoff."

Recipes will be judged on flavor, appearance, simplicity of recipe, availability of

ingredients other than farm-raised catfish, and enhancing the usage of farm-raised catfish.

The recipe must use farm-raised catfish as the main ingredient and be original to farm-raised catfish. Farm-raised catfish must also be used in the recipe title.

From the five finalists, nationally known judges will select a winner and runners-up. Transportation and other expenses incurred in Jackson will be provided for finalists. The national winner will receive a cash award of \$500, second prize, \$250; and third, \$100. Each runner-up will receive \$75. Recipes must be submitted on the entry form by Nov. 15. Mail entries to: Mrs. Berna Fontaine, Seafood Consultant, National Marine Fisheries Service, P.O. Drawer 1207, Pascagoula, 39567.

LEADERSHIP

Leadership is the action of one that leads, guides or gives direction, according to Webster's definition. Good's Dictionary of Education says it is the ability and readiness to inspire, guide, direct or manage others while Ordway Tead defines it as the activity of influencing people to cooperate toward some goal which they find desirable.

A group activity, leadership, is the result of finding oneself in a set of circumstances requiring a leader's actions. But our leaders vary from autocratic to laissez-faire to democratic.

The autocratic leadership is invested in one person who sets the goals which the group follow; he uses his personality to win the group decides what is to be done, and gives directions to follow-through on his plan. The Special abilities or skills of other members are not recognized by such a leader; thus, he stifles incentive and creativity.

The laissez-faire leader is talked into assuming the responsibility of leadership without any orientation or preliminary training and has no guidance or strong leadership abilities. Submissive to the suggestions of the group, the discussions are rambling and time-wasting.

A democratic leader, on the other hand, brings the group together to solve problems, is elected by and works with the group, grows as he gains in experience, draws members

into discussion, is willing to abide by group decisions. He may be impatient with slowness of democratic procedure, but realizes its effectiveness in the long run and allows others in the group to take leadership roles.

Under democratic leadership, members learn more, remember longer and apply what they have learned more readily. People change lastingly, and the change tends to be constructive and progressive. Workers work better and produce more than under the other kind of leadership.

People suffering from psychological disorders that keep them from normal interaction with others can often be brought around to normal and constructive living through the democratic process.

Youth and adults have the opportunity to learn and use valuable leadership skills through involvement in the 4-H program.

Pecan Production

Mississippi pecan growers, as of October 1, expect to harvest an estimated 10,000,000 pounds of pecans in 1973. This is a decrease of 1,000,000 pounds from the 1972 crop and the 1973 crop. Improved varieties are estimated at 8,000,000 pounds. Native and seedling varieties are estimated at 2,000,000 pounds.

MISS CRUSADER CONTESTANTS—Bay Catholic Elementary School contenders for Miss Crusader Queen, are, front row, from left, Cherie Monti and Teaka Ruff. Second row, Susan Treutel, Elizabeth Thibodeaux, Tonya Maggio, Patricia Brown, and Patricia Stariga. Third row, Roxane Necaise, Susie Christiansen, Pennie Boudin, Kim Scaffidi, Lisa Hawk, and Leslie Hawk. Homecoming events for the school are scheduled for Thursday. (Staff photo-Rich Adams)

Perniciaro achieves certificate

Jack Perniciaro of Jack's Marine Service, Bay St. Louis, recently completed qualifications of master mechanic for MerCruiser stern drives.

Besides keeping a service department equipped with all factory-prescribed tools and an ample parts inventory, a master mechanic must have a minimum of seven years experience servicing MerCruiser stern drives.

And for at least two of those years he must have achieved "certification," by attending special service schools and passing written and bench performance examinations.

Point VFD Auxiliary

plans lunch

The Henderson Point Volunteer Fire Department Ladies Auxiliary will host a Red Beans & Rice Luncheon on Monday at the Fire Station, 300 Livingston Dr.

Luncheon will be served from 11:30 a.m. to 1:30 p.m. for a donation of \$2.75 and is open to the public. The menu will include red beans with ham and sausage, rice, salad bar, french bread, iced tea, coffee and cake.

Parent, student cooperation asked on school census form

J. D. McCulloch, superintendent of city schools, reports that in compliance with House Bill 119 signed into law on April 15, 1977 a Census must be taken of all the educable children within the Bay St. Louis Municipal Separate school district during the month of

October, 1978.

In compliance with this bill, this Census will be taken on Wednesday, October 18. On Monday, October 16, the students of the school district will be given a form which is self-explanatory.

Parents or guardians are

asked to complete the form and have it ready on October 18 at which time the personnel of the school district will call at homes to pick up the Census form.

"Your cooperation in this matter will be appreciated," McCulloch added.
